

MedcomSoft® Record

MedcomSoft Inc.'s flagship product is MedcomSoft Record, a fully interoperable, codified EMR-based clinical automation suite, offering a single platform from which the majority of tasks required to manage practices and patients can be performed. Embedded with MEDCIN®, the world's most powerful point-of-care vocabulary, MedcomSoft Record produces fully structured and numerically codified patient charts that enable the aggregation, analysis and extensive mining of all clinical and practice management data. Using MedcomSoft Record, healthcare providers can effectively track the progression of a condition or disease and easily and securely exchange detailed patient clinical information to ensure appropriate continuity of care. The result is the world's first truly interoperable EMR and intelligent disease management system.

MedcomSoft Record is a single tool for:

- Electronic Medical Records
- Practice Management
- Provider Order Entry
- Document Management
- Referral and Authorization Management
- Disease Management and Health Maintenance
- Inter-office workflow, clinical decision support, coding and compliance checking.

Certifications

- 2006 CCHIT Certified Ambulatory EHR [MedcomSoft Record 2006 (V 3.0)]

- Association of Black Cardiologists
- Independent Physicians Network of Milwaukee, Wisconsin's largest IPA
- National Arab American Medical Association

Customer Comments

We chose MedcomSoft Record for our 33 diverse users because it is a totally integrated practice management and electronic medical record solution. MedcomSoft Record is light-years ahead of the competition.
-- *Siouxland Women's Health Care, Iowa*

MedcomSoft Record has markedly enhanced our ability to document and organize the practice. The practice went "live" and completely paperless on the system after only two, 6-hour day training sessions.
-- *Robert Graor MD, Cardiology and Vascular Medicine, New Mexico*

Using MedcomSoft Record has helped me be a better physician, without a doubt.
-- *David Burwell, MD, Family Practice, Pennsylvania*
